## WHY CHOOSE SUTTON GAMING

Sutton Gaming sets the GOLD Standard when it comes to gaming. As a family owned business with over 30 years of experience will help us ensure our North Carolina partner locations are able to quickly take advantage when Video Lottery Terminals become a reality.

## North Carolina Video Lottery Terminal Market

North Carolina is currently considering legislation to allow video lottery terminals (VLTs) in licensed establishments. Should the State approve regulated VLT's, you'll want to be prepared to take advantage. There's no better way to prepare than partnering with Sutton Gaming. Current legislation will allow for 3 VLT's per licensed location and may allow up to an additional 3 VLT's per location upon a net machine revenue benchmark. Truck stops can operate up to 10 machines.

## LEARN MORE ABOUT POTENTIAL GAMING REVENUE

Should the state approve regulated VLTs the current revenue profit and distribution will be as follows. Profits from VGTs are calculated through a simple equation of cash wagered minus credits won, which equates to Net Terminal Income (NTI) NTI is the actual revenue generated through gameplay. The current proposed NTI will then be divided as follows. The State 40%, Terminal Operator 30%, Location 30%. A location can expect to make between \$36,135\* - \$144,540\* per year in additional revenue at no cost to you!

**\$50 hold per day  
X 6 machines  
X 365 days  
X 33%=  
\$36,135**

**100\$ hold per day  
X 6 machines  
X 365 days  
X 33%=  
\$72,270**

**\$200 hold per day
